I am a born and raised in Charleston. My state has always been open to change and being different, hell we were the first state to leave the union. Anyways Uber and other companies like it offer a different type of service and convenience that helps our cities move people faster. We do not have a good bus system and no subway or trains that run in the city. We have no bike sharing service so Rideshare is a perfect fit for us. If people don't want to use it you don't have to! Get a cab, walk, or ride a bike. I understand it's really about regulations and making money. I have used the service many times and in other cities and it's absolutely awesome. The drivers are always kind and work on a rating system. Yes it's modern and different, but it's South Carolina too?

Keep Rideshare here!
Edward

Please SC, tell me what you know that Boston, San Fransisco, San Diego, Dallas etc doesn't know. Uber is a great and effective way of travel and in a state focused on the reduction of DUI related accidents, I do not know why you would limit the options of South Carolinians everywhere. Let's stop sitting in neutral and move forward like the rest of the world with effective and safe opportunities for transportation. The rest of the world is laughing at us and deservingly!!

Kim McCall

Why in the world would you want to shut Uber down. I have used it all over the country. It is affordable, reliable and most importantly safe. South Carolina has a reputation of being backwards. These actions unfortunately confirm that perception. If New York City allows over to operate, how in the world can South Carolina frustrate this business. Thanks
Rod Jernigan

South Carolina needs uber. It's such a disappointment to hear of this cease and desist order.
Please bring uber back.

Subject: Uber

Canceling this service is not the wish of the people. They allow people affordable, safe and convenient transportation whenever they like. I personally do not own an automobile and rely on uber to get to both class and work on a daily basis. Removing this service only hurts the people in this community.

Michael Connolly
